Support Groups

Education and support groups are designed to help individuals better understand the complexity of the grief process and provide the opportunity to express their many feelings and thoughts. Participants learn new ways of coping with painful emotions and stress associated with their grief through discussion videos and other learning tools alongside someone who is skilled in listening to their story without judgement. Confidentiality is always respected. Class sizes are restricted for optimal learning, so reservations are necessary.

Memorial Services

Memorial Services and Celebration of Life events offer opportunities to honor and remember loved ones. These services can include a candle-lighting or a balloon release, chaplain, special music, the presence of other grief support staff, meaningful messages and grief support literature. Services can be personalized to meet the specific needs of a group or organization.

Workshops & Education
